

GET YOUR VEHICLE READY: Checks Needed to Brave Winter Weather

Motorists should regularly check to ensure that:

- ◆ Fluid levels are full.
- ◆ Your wipers don't streak - you may want to consider installing winter wiper blades.
- ◆ Your heater and defroster are working properly.
- ◆ Your vehicle's radio is working properly so you can receive weather and traffic reports.
- ◆ All lights are working.
- ◆ Tires are properly inflated and have sufficient tread depth.
- ◆ If you live in an area prone to heavy snow, you may want to use dedicated snow tires on your vehicle or carry a set of tire chains. At a minimum, your all-weather tires should be mud and snow rated.
- ◆ Before the winter driving season, motorists should have a mechanic check the brakes, battery, hoses and belts.
- ◆ In the case of a problem, contact a mechanic immediately.

ROAD CONDITION AND TRAVEL INFORMATION

For road conditions on Pennsylvania interstate highways, please call PennDOT's Interstate Road Conditions hotline.

A Winter Driving Guide

EMERGENCY TRAVEL KIT... Don't Leave Home Without It!

- ◆ Flashlight and batteries
- ◆ Battery-operated radio
- ◆ Jumper cables
- ◆ Cell phone and charger
- ◆ Snow shovel
- ◆ Matches and candles
- ◆ First aid supplies
- ◆ Extra warm clothing and gloves
- ◆ Blanket
- ◆ Ice scraper
- ◆ Sand
- ◆ Bottled water
- ◆ Non-perishable food
- ◆ Anything else you may need to accommodate family traveling with you (special medication, baby supplies, pet food, etc.)

IF YOU MUST TRAVEL, PennDOT Offers These Winter Driving Tips:

- ◆ Carry a winter emergency travel kit.
- ◆ Listen to weather and travel advisories, and if you don't have to travel in bad weather, don't.
- ◆ Keep your gas tank at least half full.
- ◆ Slow down and increase following distance.
- ◆ Avoid sudden stops and starts.
- ◆ Beware of roads that may look wet, but are actually frozen, often referred to as "black ice."
- ◆ Use extra caution on bridges and ramps where ice can often form without warning.
- ◆ Carry a cell phone.
- ◆ Do not use cruise control while driving on snow-covered roads.
- ◆ State law requires you to turn on your headlights when your wipers are on.
- ◆ Use your low beams in bad weather, especially in cases of heavy or blowing snow.
- ◆ Remove ice and snow from windows, mirrors and all vehicle lights as often as needed.
- ◆ Remove snow and ice from the hood and roof of your vehicle. State law states that if snow or ice from your vehicle strikes a vehicle or person and causes death or injury, you can be ticketed.
- ◆ Do not park or abandon your vehicle on snow emergency routes.
- ◆ Do not pass or get between trucks plowing in a plow line (several trucks plowing side by side).
- ◆ Make sure someone else knows where you are going and when you expect to arrive. In case you run into an emergency and need help, someone will know where to look for you.
- ◆ If you do become stranded, it's better to stay with your vehicle until help arrives. Run the engine every hour or so, but make sure the tailpipe is clear and keep the downwind window cracked open.
- ◆ Do not drink and drive and always wear your seat belt.
