CITY PLAN ACTION REQUEST PROCESS

The Board of Surveyors and the Bureau of Surveys are responsible for processing all requests for changes to the City Plan. City Plan actions include: placing new streets on the City Plan, striking existing streets from the City Plan, revising the lines and/or grades of existing streets, relocating curblines and changing roadway widths, and placing or striking City utility rights of way on or from the City Plan.

Filing a request for a City Plan action is a two part process. The first part requires the submittal of a formal letter of request to the Commissioner of the Department of Streets. The second part requires the filing of an application form and the payment of an application fee of \$750.00. We encourage all those interested in requesting a City Plan action to first contact the Bureau of Surveys to discuss the proposed action before filing the application and paying the fee so that you will be better aware of some of the obstacles which may present themselves and some of the conditions which may be required to complete your request.

To discuss your proposed action and any questions you may have regarding the application process, please contact:

Survey Bureau Chief
