Introduction

Cycling is growing in popularity in Philadelphia. As a result, employers, businesses, and residents alike are interested in increasing bike parking.

Any organization with the capacity to clean and maintain a bicycle corral can apply for a permit to convert one standard on-street parking space into an on-street bicycle parking corral that will hold up to 12 bicycles.

Bicycle corrals are permitted by the City of Philadelphia through its Streets Department. Bike corral owners receive a one-year Pedestrian Enhancement Permit that is renewable for up to three years.

To receive a Pedestrian Enhancement Permit, submit an application demonstrating consistency with the guidelines established in this document regarding placement, design, maintenance, and operations.

Placement Guidelines

All bicycle corral locations are subject to review by the City’s Chief Traffic Engineer. The guidance below must be followed unless specifically waived by the Chief Traffic Engineer.

Placement within the neighborhood

1. Bicycle corrals should be located in areas with both high demand for bicycle parking and limited sidewalk (or other) space for installing standard bike racks.
2. Bicycle corrals must not be in a travel lane, peak hour clearance lane, or winter snow emergency lane.

Placement on the block

1. Locations near the ends of blocks are preferable; they are more visible to drivers and can reduce crossing distances for pedestrians.
2. There must be at least 20 feet of unobstructed space in the street immediately in front of the proposed business or organization that will host the bicycle corral.
3. Bicycle corrals must:
   a. Have at least 5 feet of unobstructed clearance to utilities, loading zones, or handicapped parking spaces;
   b. Be at least 60 feet from any bus stops or shelters;
   c. Be at least 15 feet from any fire hydrant; and
   d. Be at least 20 feet from any marked crosswalk or 32 feet from the block corner at intersections without a marked crosswalk.

See page 6 for an illustrated placement and design guideline.

Maintaining access to utilities

The bicycle corral must not block access to utilities, including:

1. Manholes
2. Sewer grates/storm drains
3. Storm drain cleanouts
4. Water shutoff valves
5. Gas shutoff valves
6. Electric meters
7. Telephone switch boxes

Design Guidelines

Dimensions and capacity

1. Bicycle corrals must fit within a single defined parking space. The envelope for a standard on-street parking space in the City of Philadelphia is 20’ x 7’.

2. Bicycle corrals must be capable of securing at least 8 bicycles with 2 points of support. These points of support should:
   a. Prevent the wheel of the bike from tipping; and
   b. Enable the frame, and at least one wheel, to be locked to the rack with a standard “U lock.”

Accessibility from the sidewalk

Bike racks within the corral must be easily accessible from the adjacent sidewalk.

Components

1. The rack frame should be resistant to destruction, i.e., cutting or disassembly with standard hand-held tools such as wrenches, pry bars, pipe cutters, and saws; and

2. Racks should be rust-proof, i.e., covered with non-rusting paint, powder coat, galvanization, etc.

Attachment to the street

Racks must be affixed to the surface using 3/8” x 4” lag screws set into plastic expansion anchors or grouted asphalt-specific anchors such as those found here: http://www.asphaltanchors.com/.

Visibility and protection from vehicles

Corners and edges of the bicycle corral must be clearly demarcated with at least 6 flexible delineator posts. Generally, the posts should be white if they are to the right of oncoming traffic, or yellow if they are to the left of oncoming traffic. Delineator posts must be highway rated and feature a reflective band near the top of the post. An example of a suitable post can be found here: http://www.impactrecovery.com/products/tuff-post-flexible-posts/#

Guidelines for Operation

Applicant guidelines

Permittee must own or be a commercial tenant of the property upon whose building frontage the bicycle corral will be installed. Non-profit organizations, such as community organizations or business improvement districts, may apply for a bicycle corral permit with support from the fronting property owner to the location. Permittees may receive help from any interested party in completing these forms. Note that the Permittee must be the same entity that holds required insurance (see page 21).

General Guidelines
1. Cleaning and maintaining bicycle corrals is the responsibility of the Permittee. These responsibilities are detailed in a set of Permit Special Conditions (see page 16). In particular, Permittees must:
   a. Regularly sweep out trash and debris;
   b. Clear snow from the bicycle corral within 48 hours of a snow emergency event;
   c. Provide general routine maintenance to corral such as painting, cleaning, removing stickers, and removing bicycles abandoned for more than one month; and
   d. Replace broken or damaged perimeter markings or flexible delineator posts.

2. Permittees should keep a copy of their permit and attached special conditions on hand. The permit need not be displayed outside on the bicycle corral.

3. Evidence of damage or vandalism must be reported to the Philadelphia Streets Department.

Procedures for Complaints
If the City of Philadelphia receives complaints regarding the condition, maintenance, or safety of the bicycle corral, the City will conduct a field investigation to determine the nature of the problem and recommend any remedial steps.

1. If the condition of the bicycle corral is deemed acceptable, no further action will be taken.

2. If the condition of the corral is deemed unacceptable, the City will issue recommendations to address the complaints. The Permittee will have 14 days to remedy or provide an acceptable plan for the remedy of the complaint to the City.

3. If, after 14 days, the Permittee has not provided an acceptable remedy or plan for the remedy of the complaint, the City may revoke the permit and require the removal of the bicycle corral at the sole expense of the Permittee.

Continued or repeated complaints followed by field visits which result in unacceptable reviews may also be considered as grounds to revoke the permit and require its removal at the sole discretion of the City of Philadelphia.
Bicycle Corral FAQs

Can the City provide or assist with bicycle corral funding, maintenance, or repair?
The City does not provide funds to support the design, construction, or maintenance of bicycle corrals.

Who is responsible for the bicycle corral?
All bicycle corrals installed through this process will be the property of the Permittee. Maintenance, care, and repair of the bicycle corral remains the responsibility of the Permittee.

Who installs the bicycle corral?
The Permittee installs, monitors, and maintains the bicycle corral.

What will protect the corral?
The bicycle corral must be surrounded by high quality flexible delineators. These delineators are reflective and highly visible during all conditions.

Who is responsible if bicycles are stolen from the bicycle corral?
As with all public bike racks, bicycle owners are responsible for securely locking bikes. Bike owners should report theft to the Philadelphia Police Department. If you see suspicious activity at a bicycle corral, call 911.

What happens if bikes parked in the bicycle corral are damaged by a vehicle?
Bike owners use the racks at their own risk. Drivers are responsible if they hit fixed objects, including bikes and bike racks. If a car or other vehicle hits and damages the bicycle corral itself or bikes parked on the corral, it falls to the responsible parties and/or their liability insurance carriers to pay for the damage.

Can bicycle corrals accommodate extra-long bikes, such as tandems and recumbents?
Parking tandems and recumbents in parking spaces are only acceptable so long as bikes do not protrude into the roadway or sidewalk.
Initial Application Process

Bicycle corral applications are completed in two phases. The first phase is site approval by the Philadelphia Streets Department, and the second phase is issuance of the Pedestrian Enhancement Permit. Applicants must have an approved bicycle corral location before applying for a Pedestrian Enhancement Permit.

Please contact the Bicycle Corral Program Manager with any questions or concerns prior to submitting your application. You can write to completestreets@phila.gov or call 215-686-4421.

Phase 1: Submit a bicycle corral application

1. Complete a bicycle corral application form, including all required signatures (see page 13).
2. Submit the form along with required attachments (see page 15):
   a. A description, including photos, of the need for more bicycle parking in this location (maximum 500 words and three photographs);
   b. Photos and a map of the proposed bicycle corral location;
   c. Letters of support from adjacent property owners on the same Block Face (see page 24), as applicable (see sample on page 20);
   d. Plan, to scale, of the proposed bicycle corral in relation to nearby objects; and
   e. Bicycle corral design diagram(s).
3. Application Review: Location Approval
   a. Streets Department staff will review the proposed bicycle corral location and design to ensure that it is consistent with the City’s guidelines, that it will not conflict with upcoming public works or construction, and that it will not create conflicts with area public transportation.
   b. The Applicant will be notified upon approval or rejection of application.
   c. If the location is approved, the Applicant then must apply for an approval for installation of the bicycle corral.

Phase 2: Submit completed Pedestrian Enhancement Permit Application

The Pedestrian Enhancement Permit Application consists of the following items. Each item is required and should be submitted as a PDF portfolio or ZIP file to the Bicycle Corral Program Manager at 15 days prior to the planned installation of the bicycle corral.

1. Street Closure for Equipment Placement Permit (REQUIRED)
   b. The name of the Applicant must match that of the organization that holds required insurance (see page 23). Indicate that “Pedestrian Enhancement – Bicycle Corral” is the purpose of the street closure.
2. Application fee (REQUIRED)

Submit an application fee of $125. This fee is to cover the cost of review and inspection. Methods of payment include check, money order, cash, and Epay.

3. Gather evidence of community support (REQUIRED)

Once the Applicant receives location approval from the Streets Department, they should collect a petition in support of the bicycle corral. Please contact the Bicycle Corral Program Manager to discuss the scope. Generally, the petition of support should be signed by a representative of at least one-half of the addresses which are (a) within 75’ of the proposed bicycle corral and (b) in the Applicant’s Block Face or the Applicant’s opposite Block Face. Representatives include: Owner, tenant, or property manager of either residential or commercial properties. Special circumstances—such as vacant buildings, active construction projects, and/or unconventional numbering, etc.—can be discussed. (See page 24 for illustration of Block Face.)

4. Completed and approved Bicycle Corral Application (REQUIRED)

5. Provide proof of insurance (REQUIRED)

The City’s Risk Management Office requires Permittees to obtain proof of required insurance in the form of certificate(s) of insurance issued to the City of Philadelphia. The City’s requirements are detailed on page 21 of this document.

6. Applicants are highly encouraged—but not required—to provide a letter of support from their local district council member as early in the application process as possible.

7. Letters of support from other neighbors, civic associations, or business associations near the proposed bicycle corral are recommended also, but are not required.

Pedestrian Enhancement Permit Renewal and Reapplication

Pedestrian Enhancement Permit Renewal (For Years 2 and 3)

Each Pedestrian Enhancement Permit is valid for one year, and can be renewed for up to three years. The City will fail to renew a bicycle corral permit only if the corral poses a safety hazard or if the Permittee has not complied with City guidelines.

To renew a bicycle corral permit for a second or third year, follow the steps below:

1. Fill out a renewal application for a Pedestrian Enhancement permit:
2. The name of the Applicant must match that of the organization that holds required insurance.

4. In the upper left-hand corner, check “extend existing permit” and enter your permit number, which is indicated on the previous year’s permit.
5. Submit a certificate of insurance demonstrating that the Permittee maintains required insurance (see page 21).

Pedestrian Enhancement Permit Reapplication (Starting Year 4)

The City of Philadelphia Pedestrian Enhancement Ordinance states that Pedestrian Enhancement Permits are renewable for up to three years. After three years, follow the procedures below to reapply for a Pedestrian Enhancement Permit.

Please note that you may resubmit materials used previously (such as maps, photos, etc.) so long as they are still current, with the exception of (a) your initial application form with required signatures, (b) letters of support from property owners and adjacent property owners, (c) a petition of support for the bicycle corral, and (d) letter of support from your local council person (recommended, not required). Permit Reapplication must follow the same procedures outlined on page 10 and page 11 (Phase 2) of this document.
